Recognize Various Concepts of Your Personal Wellness:

Holism

Your wellbeing is impacted by several dimensions of your overall life, including physical, emotional, social, spiritual and cultural wellbeing. The dimensions of your life are interrelated and you must constantly seek to improve within each.

Balance

Create balance in your life by giving significant attention to each dimension. Lack of focus on any particular dimension of your life can result in unhappiness and unhealthy behaviors.

Self-Responsibility

A 'well person' does not allow others to control their decisions nor happiness. This concept is the process of becoming more aware of how your actions impact your life.

Positive and Proactive

Personal wellness requires you to think positively to maintain happiness and self-esteem. Be proactive about your decisions and TAKE CARE OF YOURSELF!

In order to make wellness a lifestyle, Global Wellness Day aims to adopt the following seven simple steps:

1. Walk for an hour
2. Drink more water
3. Don't use plastic
4. Eat healthy food
5. Do a good deed
6. Have dinner with loved ones
