**Notifications to the local health department per Title 8 CCR 3502.1 and 3502.2**

Immediately, but no longer than 48 hours after learning of three or more COVID-19 cases in our workplace, California employers must contact the local health department for guidance on preventing the further spread of COVID-19 within the workplace.

Employers will provide to the local health department the total number of COVID-19 cases and, for each COVID-19 case, the following information:

- Name,
- Contact information,
- Occupation,
- Workplace location,
- Business address,
- Hospitalization and/or fatality status,
- North American Industry Classification System code of the workplace,
- And any other information requested by the local health department.

Employers will continue to give notice to the local health department of any subsequent COVID-19 cases at our workplace.
